

ACTSAFE ACX POWER ASCENDER

POA-001

Set consisting of battery-operated power ascender, two batteries and charger

- Efficient work at height: Simplified and accelerated work on structures that are difficult to access, such as facades, wind turbines and masts
- All-in-one set: Also includes two high-capacity batteries and a charger
- Extended performance: Available with High Capacity Battery for longer applications

Colour: Orange

Number of Rechargeable Batteries: 2

2

Regional Charger: EU

EU

PRODUCT INFORMATION "ACTSAFE ACX POWER ASCENDER"

The ACX battery-powered hoist is a motorised system to ensure the transport of persons or loads to areas that are difficult to access and where occasional or recurring work is carried out. ACX is used, among other things, for cleaning facades or windows, for the maintenance of complex building structures, for the rotor blade maintenance of wind turbines or for transporting loads on masts. The ACX POWER ASCENDER considerably simplifies and accelerates

Countless rescue
is a highly flexible system
led by remote control.

PRODUCT

Application areas	Rope access, Rescue
Battery range at 20° C & 100 kg load	550 m
Brand	ActSafe
Charging time	90 minutes
Emergency descent function	Yes
Emergency stop function	Yes
Energy source	Removeable Battery, POA-004 power supply
Material	Aluminium, Nylon, Steel
Max. ascent rate	24 m/min
Max. noise level	76 dB(A)
Maximum compatible rope diameter	11.00 mm
Maximum descent speed	25 m/min
Maximum temperature	40 °C
Min. ascent rate	1 m/min
Min. noise level	0 dB(A)
Minimum compatible rope diameter	11.00 mm
Minimum descent speed	1 m/min
Minimum temperature	-10 °C
Remote control range	150 m
Underwater operations	No
Usable in SEAL PAC	No
Water dust resistance	IP 55
Working Load Limit	220 kg
Colour	Orange
Customs tariff number	84253100
Gross weight	30.00 kg
